

## Red Valve Products Comply with All E.U. Standards

When you specify Red Valve products, you can be sure they meet all E. U. Standards as well as many other countries' criteria, to perform as expected. As the world-leader in Pinch Valve and Elastomer technology, Red Valve knows the importance of complying with the highest International Standards. We deliver engineered valves designed to meet and/or exceed customers' expectations around the world.

As part of Red Valve's commitment to serve the international valve marketplace, we're constantly working to ensure our advanced valve solutions meet or exceed all International Standards. To learn more about Red Valve's Standards compliance in any specific region or country, please call (412) 279-0044, or email us at [support@redvalve.com](mailto:support@redvalve.com). For more information about our full line of valve products, visit us at [www.redvalve.com](http://www.redvalve.com).
